

WORSHIP MULTI TRACK PROVIDERS COMPARED

	MultiTracks.com	Loop Community	Fly Worship	Praisecharts	Worship Backing Band
Our take on key features	<p>Likely the market leader. Designed for larger churches and highly competent musicians with good technical ability to use Ableton.</p> <p>A huge library of songs with complex pricing structure. Subscription option provides access to a limited number of songs per month but not in WAV format. This could get very expensive very quickly.</p> <p>No lead vocals.</p> <p>Songs include original Masters (with exclusive rights to distribute original Hillsong recordings).</p>	<p>Snapping at MultiTracks.com's heels, Loop has a wide selection of songs from Master recordings, Premium and Community provided songs.</p> <p>No lead vocals.</p> <p>Not all tracks available outside the Prime App. Recordings inevitably inconsistent due to wide range of track suppliers (any one song has a confusing array of multiple track providers to choose from).</p> <p>The download process with Prime has led to some complaints about compressed sound issues.</p>	<p>Comprehensive Player from UK-based Fly Worship with all the technical bells and whistles such as lyric projection and background animations. These extra gadgets arguably result in higher levels of complexity of use.</p> <p>Low cost subscription service keeps users tied in. Tracks not available outside subscription.</p> <p>Tracks can't be used outside of Fly apps. Comprehensive library. Songs in 3 keys (other providers use in-app transposition).</p> <p>No vocals or audio cue stem mixes.</p>	<p>A large library of MultiTracks have been added to Praisecharts' traditional offering of sheet music, lead sheets and chord charts. Tracks are (we understand) recordings rather than original masters.</p> <p>There is no proprietary Player so tracks need to be used in a DAW such as Ableton.</p> <p>At nearly \$30 per track pricing is at the high end of the spectrum.</p> <p>No lead vocals.</p>	<p>Simple-to-use Player that incorporates lead and backing vocals. Ideal for smaller churches on a budget.</p> <p>Lowest cost of all the providers.</p> <p>Library includes most of the CCLI Top 250 and more but tracks from MultiTracks.com or Loop Community can be used in the WBB Player.</p> <p>Click track and vocal cue options for band mix.</p> <p>iPad Player offers additional fading and between-song pad options.</p> <p>Transparent pricing on website.</p>
MultiTrack Player	<p>Ableton (\$99-\$749) or similar DAW.</p> <p>Playback (iOS only) – free but to unlock all the features a \$6 monthly fee is charged</p>	<p>Ableton (\$99-\$749) or similar DAW.</p> <p>Prime App (iOS and Mac only) – free</p>	<p>Provided with subscription</p>	<p>Ableton (\$99-\$749) or similar DAW only. No simplified player as offered by other providers.</p>	<p>Mac/PC Player \$49.99 / £34.99</p> <p>iPad Player (\$19.99)</p> <p>Tracks work in any DAW inc GarageBand (free)</p>
